Registration for exams after the deadline

If you are already registered for the exam in other courses, these courses should not be repeated on this form.

The Study Administration will try to get your registration for the exam approved. You can check your registration(s) on an on-going basis to see if it is approved.

The institutes plan the examination (including possible changes to the form of the exam) based on the students who have registered in time, and it is therefore only possible in some cases to be registered after the registration deadline has expired.

NOTE! It is important that this form is sent from your student email to studadm@adm.dtu.dk, as this verifies your identity in signing up for course(s).
